MongoDB | Express.js | React | SQL | Excel | Flask | Java Spring Boot | Heroku | Firebase | WordPress | Figma

Experience

02/2020 - 05/2024

Reese Phone Repair, New England - Phone Repair Technician

- Generated \$28,000 in online sales for a digital phone repair course through 2023, leveraging expertise in phone repair, sourcing, advertising and reselling.
- Sourced phones online and locally through social media sites and markets; sold to international direct buyers, averaging \$4,000 in monthly transactions through 2023.
- Gained proficiency using Canva, WordPress, Shopify, Google Ads, Google My Business, and Meta Ads Manager to manage and grow the business.

06/2022 - 04/2024

Aroma Joe's, Haverhill, MA - Barista

- Handled and troubleshooted POS systems (Toast)
- Provided exceptional customer service for up to 200 customers per hour

Projects

My Website - <https://woooocoder.github.io/mySite/>

Boulder Flash - Current Project - [Link](#)

Developing a web application to keep track of your rock climbing sessions. Log each climb, upload videos, generate statistics to visualize your progress, and share with friends.

YelpCamp - [Link](#)

Full stack web app used to rate campsites around the world (like Yelp). Design implementations include form validation, auth, routing, deployment, 3rd party APIs, boilerplates, and more.

Education

09/2020 - 12/2024 exp.

University Of Massachusetts - Boston - B.S Computer Science

- Computer Science Club
- Chess Club
- CS615 - UI Design
- CS410 - Software Engineering
